

Counseling Internship Clinical Services

Scotty's House Counseling Services Internship provides supervised experience in trauma focused mental health treatment using numerous modalities such as play therapy, trauma focused cognitive behavioral therapy, family, group, art and animal assisted therapies. Under supervision, practicum students, counselor interns and doctoral students provide professional services. Students and interns receive weekly one on one supervision as well as peer review.

For more information about practicum or intern possibilities, please contact Denise Peterson, Lead Therapist, at dpeterson@scottyshouse.org.
